ERP ADVANTAGE

ORACLE Diamond Partner Cloud Premier EMEA

Elevator pitch

Reduce costs and accelerate your customers' ERP implementation by leveraging Capgemini's complete, cloud-based solutions with tools and accelerators. We leverage pre-configured environments and an asset kit based on industry best practices and processes to maximize project ROI.

UNIQUE CAPGEMINI DIFFERENTIATORS

Consultant Profile: our consultants have in depth financial and purchasing experience as well as strong technical competencies. This positions Capgemini as the unique partner for accompanying customers on their Business Transformation Journey

iUnify Cloud: our accelerated program for implementing Oracle ERP Cloud for true and timely business transformation

Pre-integrated/Configured implementation instances

ENGAGE CAPGEMINI CAPABILITIES

Rapid implementation capability: The rapid implementation kit is available for each ERP module. ROI and time-to-value are greatly increased with use

Requirements library: extensive collection of requirements and best practices from prior implementation experiences. Reduces risk, enhances configuration and supports industry standards

Certified consultant pool: 100+ certified Oracle Fusion Consultants with extensive industry experience

VALUE ADD

Multiple Adoption paths: including co-existence

Financials: Accelerators and extract/load migration tool kit that accelerates cloud adoption from Oracle E-Business Suite and PeopleSoft

Procurement: A library of procurement requirements and best practices gathered from prior implementation experience to reduce risk, enhance configuration and customization, and support industry standards
