Top IT Analyst Firm Ranks Capgemini #1 in Worldwide Market Share for Utilities Industry Consulting Services in 2006

Company also rated #2 in both IT Services and Development & Integration and #3 in IT Management for the Utilities industry based on 2006 Worldwide Market Share

NEW YORK – September 5, 2007 – Capgemini, one of the world’s foremost providers of consulting, technology and outsourcing services, announced today that according to Gartner Inc.’s “Market Share: IT Services in the Utilities Industry, Worldwide, 2006”¹ report, Capgemini earned the largest share of the worldwide market for the utilities industry consulting services in 2006, The Company also captured the second largest share of both the IT Services and the Development & Integration services markets and held the third largest share of the IT Management services market of the Utilities industry based on 2006 worldwide market share.

“Capgemini will continue working hard to remain the global market leader among companies providing consulting services to the utilities industry,” said Colette Lewiner, senior vice president and head of global energy, utilities and chemicals for Capgemini. “An increasing number of utility companies are turning to us for our expertise in consulting, IT services, development & integration and IT management. Because of our deep industry experience and successful track record in enabling utilities to achieve better, faster and more sustainable results than they could attain on their own, we have become the first choice among utility companies worldwide.”

Lewiner said Capgemini helped utility companies around the world tackle a host of challenging issues in 2006, ranging from dealing with market liberalization, customer relationship management, asset management, generation investments, productivity improvements, corporate governance, risk management and industry consolidation.
