## Connect anything. Change everything

Companies need to keep up with the speed of business. In this customer-first era, there is an ever-increasing demand to innovate faster to meet evolving expectations. To deliver innovative offerings at an accelerated pace, companies need connectivity to move faster. A global leader in consulting, technology services, and digital transformation, Capgemini is at the forefront of innovation to address the entire breadth of clients' opportunities in the evolving world of cloud, digital, and platforms.

## Work with proven experience

A MuleSoft partner since 2008, Capgemini has delivered innovative solutions to companies across multiple industries that address data aggregation, visibility, and accessibility.

The recent acquisition of WhiteSky Labs makes Capgemini the market leader in MuleSoft integration across Asia Pacific as the team brings highly specialised technical and business experience to enable our clients' growth with increased agility in the digital economy. With our combined Salesforce and MuleSoft capability we are truly a global leader in digital transformation.

Combining deep industry knowledge with technical and business experience, we assist our clients at all stages of their API / integration journey from business technology strategy through to managed service support. Our services include technology consulting and development, managed services, and training and enablement.

With significant footprint across the Asia Pacific region and a MuleSoft Centre of Excellence located in Manila, Philippines, our MuleSoft certified consultants bring decades of integration experience across industries, technologies and geographies.

## Our Value Proposition – Delivering digital transformation at speed

### Specialists, Not Generalists

Focused on integration and MuleSoft with extensive global experience, our 100% MuleSoft Certified Consultants bring the very best in API, Integration and MuleSoft Consulting

### Complete MuleSoft Services Provider

We can provide our clients with a full complement of MuleSoft services, including consulting and development services, managed production support, license resale through to training and enablement services.

### Proven Methodology, Quality Outcomes

Created from 20+ years of integration specialisation, our delivery MuleSoft frameworks, integration best practices and IP brings repeated high-quality client solutions

### Trusted MuleSoft Premier Partner

MuleSoft partner since 2008, we're a multi-award winning, leading APAC MuleSoft partner.

## Our Core Service Offerings

### Technology Consulting

Our consulting services, from **Strategic Architecture** to **Implementation Services** are designed to ensure our clients get the very best from its investment in the MuleSoft Platform, aligning your business vision and technology.

### Managed Services

Based on ITIL & DevOps best practices, our MuleSoft experts provide a full continuum of support, maintenance and management services around MuleSoft's technology stack when you need it most, delivered via our award-winning centre of excellence.

### MuleSoft Academy

As a premier partner we provide you with the full range of official MuleSoft training and enablement services to get you and your team up and running with your new MuleSoft Integration Platform enabled at scale.

## Strategy and Architecture, Enabling Digital Transformation

The key to a successful enterprise transformation in the digital landscape requires a full end-to-end digital integration strategy, it's vital to achieve performance, agility, flexibility and innovation.

Our 100% MuleSoft certified Platform & Solution Architects will work with your stakeholders to understand your business vision and objectives. We will align to your enterprise strategy and help define the most optimal API led strategy for you as well as key insights necessary for your transformation.

### Digital Transformation Roadmap

### Cloud 1st Services

### API Readiness Assessment

## Design Performant, Scalable and Secure MuleSoft Integration Solutions

Your MuleSoft Integration platform is the foundation to your digital transformation – achieving the optimal platform architecture and design is a crucial step in your journey.

Our highly experienced MuleSoft Platform Architects will guide you at every step of platform design to design and build a performant, scalable and secure MuleSoft Integration Platform tailored for you.

## Continuous Optimised Performance

Our Solution Architects pride themselves in the design of efficient, dependable, robust and performant solutions. Our solutions are the culmination of decades of integration architecture and design expertise, gained across a plethora of global industries. Some of the most well recognised companies in the world have relied upon our solution designs to run the core processes of their business. We are confident that we can help you and your business too.

## Proven Performance and Results

We build scalable project teams consisting of 100% MuleSoft certified architects, consultants and developers managed and led by career professional integration technical project managers. Our project teams are engineered to be highly performant, innovative and to deliver quality MuleSoft solutions for your business. Our implementation approach includes :

**Agile Development,  
Standards Compliant and  
iterative API results**

**MUnit Automated  
Unit Testing**

**System Integrated  
and User  
Acceptance Testing**

## Our Delivery Methodology

### Rapid Deployment to Market

By using the Agile delivery methodology coupled with our team of dedicated MuleSoft experts, we can deliver continued development and functional APIs at an award-winning standard, faster than anyone else.

Leverage our global Centre of Excellence, incorporating decades of integration expertise and ability to rapidly scale to your enterprise digital transformation program. Our passion for delivery excellence is core to our values, and enables us to be a proven, award winning, safe pair of hands in the MuleSoft integration landscape.

### Value Added Services

#### Transformative Managed Services

Capgemini's Transformative Managed Service will completely change your integration technology landscape. During the term of the managed service, we will provide you with world class integration support and will migrate your legacy integration platform to the strategic, cloud first platform of MuleSoft 4.

#### Integration & API Discovery

We can work with you to conduct a focused API discovery workshop, help you define the high-level conceptual design, define your initial API requirements and provide you with a practical implementation roadmap.

#### Mule 4 Migration

There is no rapid migration approach or automated tooling to help you move from Mule 3.x to Mule 4. For the optimal results, our 100% MuleSoft certified consultants with decades of integration expertise will help guide you through your upgrade options.

#### Capacity Planning

Our MuleSoft Platform and Solution Architects will conduct a rapid and thorough review of your daily, monthly and annual usage of the platform; we compare this against key performance indicators to independently measure your current capacity.

### **Performance Optimisation & Refactoring**

Optimisation of your MuleSoft platform will not only reduce your long-term costs but will also ensure your integration platform is always operating at its best.

### **Centre of Excellence Enablement**

We have been enabling Centres of Excellence for our clients for over 20 years. Leverage our CoE expertise to help you build a world class Centre of Excellence for your business.

### **API Readiness Assessment**

We can conduct a succinct but thorough assessment of your core business systems, applications, your individual people talent and/or your organisation's digital and cloud readiness. It's a highly cost-effective investment and will help you decide how, when and at what pace your organisation can embark on a digital transformation.

## **MuleSoft Academy**

With our wide knowledge of MuleSoft technologies, deep industry experience and hands-on delivery success, we can help your teams grow their knowledge and, with our guidance, develop the MuleSoft capabilities of your internal teams to maximise the return on your investment in the MuleSoft platform.

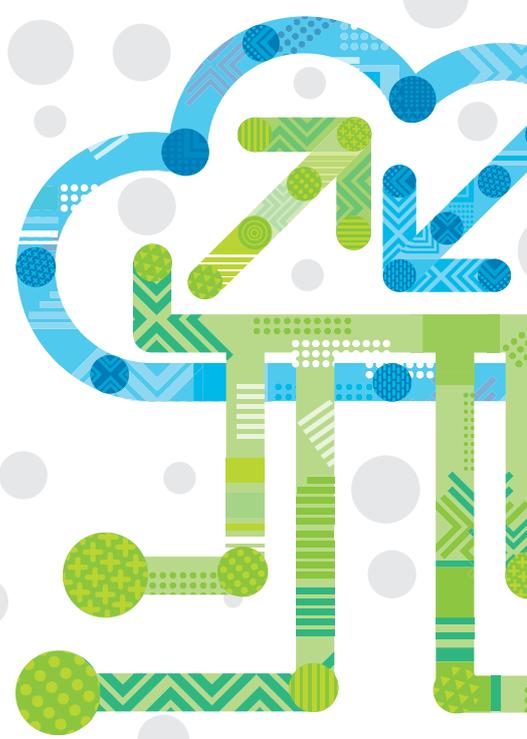

As a value-added reseller for MuleSoft training, we can provide you with the full range of accredited MuleSoft training courses

Learn practical MuleSoft development from our talented pool of developers who are some of the best MuleSoft practitioners in the world. You'll get hands-on experience and learn how professional developers work through a fast-paced 5-day course

We can plan future learning paths to expand your teams' knowledge in specific areas to align to your business objectives
