### KONDO MY PORTFOLIO

Tidying up the applications portfolio in a systematic, decisive way to make room for innovation, agility, and the next generation of powerful application services

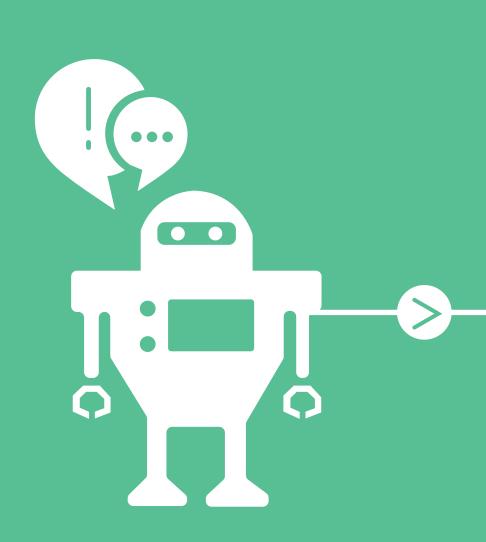

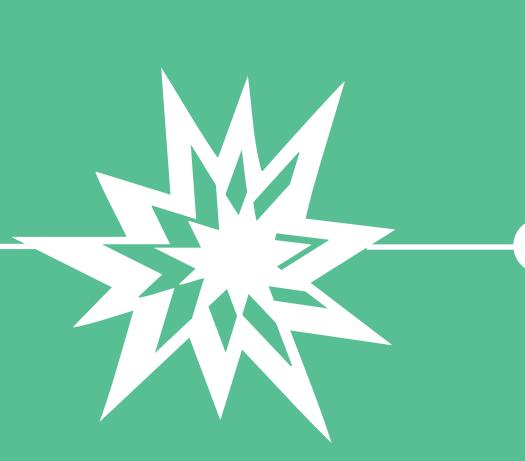

Capgeminice

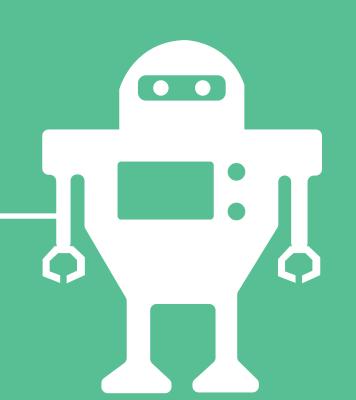

# HONEY, I SHRUNK TO THE APPLICATIONS

Next-generation agile and response "light" application services are built on the concepts of Microservices, API-first, Cloud-native, and Headless

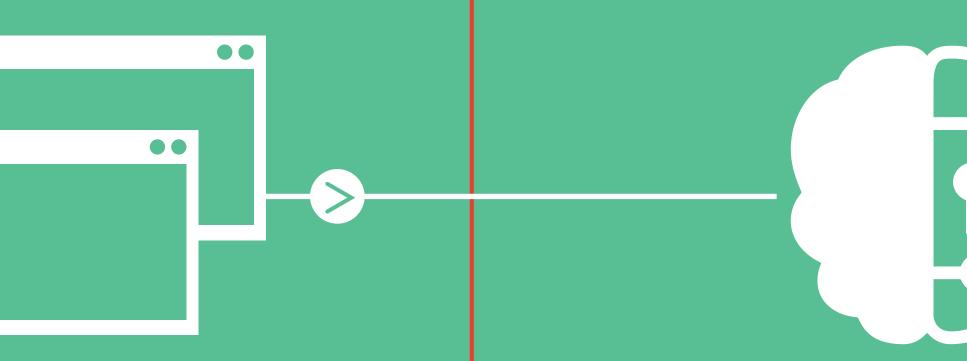

Capgeminice

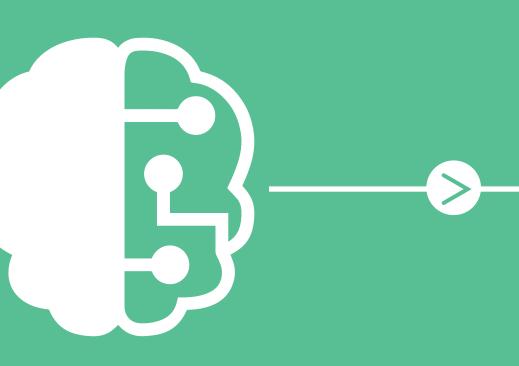

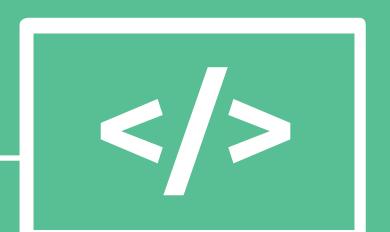

#### WHEN CODE GOES LOW

Low-code and no-code platforms make building next-generation application services a high-productivity matter, for both IT and business specialists

Capgemini

### MESH UP YOUR APPS

A "mesh" of highly accessible, secure, and agile application services that are ultra-easy to connect with and combine, both inside and outside the organization

Capgeminice
