

360° LEADER

on SAP S/4HANA Transformation

The Leader amongst Leaders

Capgemini has been positioned as a Leader in the SAP - HANA and Leonardo Ecosystem Partners - ISG Provider Lens Study 2019.

Digital Core Offer – a key differentiator

What makes Capgemini stand out as a leader is our extensive **Digital Core with SAP S/4HANA** offerings, broad industry focus and framework. Capgemini's approach is to simplify the core and build the differentiation with intelligent technologies: the right way to become a **Renewable Enterprise**.

How to become a Renewable Enterprise

The Renewable Enterprise is the future-ready enterprise for an agile business transformation, at measured risk, supported by a solid evolving architecture framework and skilled people.

The way we do it:

- Highway to SAP S/4HANA:** Build the foundation for your digital journey. Unlock the business value from digital, elevate your people and outpace your competition with SAP S/4HANA as the digital core. We help you at every point of your transformation journey with the right approach, tools, assets and services.
- Capgemini Intelligent Enterprise:** Leverage intelligent technologies and SAP Cloud Platform in combination with any other cloud platform, our breadth of industry-specific solutions such as FD4DI use cases and SAP Cloud for Automotive Suppliers, and a wealth of robust assets for accelerated delivery, along with Ariba, Concur, SuccessFactors, SAP C/4HANA, to enhance the business value of the digital core.

Delivery Excellence

Capgemini's novel approach to delivery, leveraging its Digital Delivery Framework (DDF) allows our enterprise clients to be more agile and automate processes. Capgemini has delivered more than 20 projects using the DDF framework since its launch in December 2018.

SAP S/4HANA & Business Suite on HANA Managed services

Capgemini's application services portfolio is anchored by its in-house **ADMnext** framework, an ITIL-based continuous improvement program and solutions that cater to a broad set of industries, making the company a good choice to meet the stringent support requirements of large enterprises.

SAP BW/4 on HANA and BW on HANA Transformation & Operations

Capgemini has one of the strongest SAP Business Warehouse practices, with close to 400 certified SAP BW professionals, plus an Intelligent Enterprise methodology covering business designs, MDM and MDG capabilities, large BW customer base and industry focused solutions.

SAP Leonardo Transformation

Capgemini has more than 200 SAP Leonardo experts with different experience levels and offers accelerators and its Innovation Lab to create innovative offerings using SAP technologies for several industries. The company is a go-to-choice for enterprises in the manufacturing, retail and automotive industries that are looking for SAP Leonardo solutions to gain digital leadership.

SAP Cloud Platform Support Services

Capgemini's industry-specific solutions, dedicated innovation lab and standalone offerings in SAP Leonardo are its key differentiators

Rising Star and our Geographical Reach

In addition, Capgemini is named as an SAP S/4HANA transformation leader in the USA, UK, Nordics, Germany, and as a "Rising Star" in Brazil, indicating high future potential in this geography.
