Capgemini positioned in the Winner's Circle by HfS Research Blueprint report for Finance & Accounting As-a-Service Business Process Outsourcing

Paris, May 13 2016, [Capgemini](http://www.capgemini.com), one of the world's foremost providers of consulting, technology and outsourcing services, today announced it has been ranked in the Winner's Circle in the HfS Blueprint Report: Finance & Accounting (F&A) As-a-Service Business Process Outsourcing. The report positions Capgemini as a "mature F&A service provider with an array of models and additional strength being integrated through acquisitions and re-organization".

Capgemini has been featured in the Winner's Circle based on the acknowledgment by clients on the parameters of execution and innovation along with recognition for its "intelligent automation F&A focus". According to the report, HfS assessed 18 global F&A BPO service providers and positioned those in the Winner's Circle who had "collaborative engagements with clients, making recognizable investments in future capabilities, in talent and technology to continue to increase the value over time." Some of the critical areas of strengths that differentiated Capgemini from its competitors, as cited by HfS, were reorganizing IT, BPO together "As-a-Stack", Capgemini's dual approach to traditional and As-a-Service F&A models, industry verticalization and focus on intelligent automation F&A.

Aruna Jayanthi, Head of Business Services, Member of the Group Executive Committee at Capgemini said: *"We are delighted to be positioned in the Winner's Circle again this year; it is a testimony to Capgemini's world class Finance and Accounting BPO services and strong client relationships. Through integrated end-to-end solutions covering business processes, technology and infrastructure, we are well-positioned to leverage our experience and strength globally to address clients' business challenges."*

With nearly 50 years' experience in Finance and Accounting services, Capgemini is an expert in every finance function vital to a business, from infrastructure and applications through to business process outsourcing. Capgemini's best-in-class Business Process-as-a-Service (BPaaS), including BPO-as-a-Stack¹ offering, reduces operational costs while integrating services, processes, applications and infrastructure to streamline and facilitate business growth.

¹ BPO-as-a-Stack combines technology, processes and applications to provide a completely seamless and highly customizable business service. Ranging from process-specific "thin stacks" or end-to-end "thick stacks" to achieve faster deployment, reduced time-to-market and less complexity, it's a complete back office on the go.
