Capgemini positioned as a Leader in Gartner Magic Quadrant for Managed Workplace Services, Europe report

Paris, January 24, 2019 – Capgemini today announced that it has been positioned as a Leader by Gartner in its Magic Quadrant for Managed Workplace Services (MWS), Europe report. It was one of sixteen vendors to be evaluated on the ability to execute and completeness of vision.

Gartner's positioning of vendors in the Leaders quadrant can best be described as those service providers who "deliver their service solutions skillfully, have a clear vision of the direction of the service market, and are actively building and improving their competencies to sustain their leadership positions. The Leaders quadrant indicates the direction of the MWS market. However, most digital workplace offerings still have low adoption rates. Leaders have demonstrated their experience in delivering Managed Workplace Services and understand the requirements to successfully deliver these services. They have proved their ability to execute and their strategic visions."

"We are delighted to be positioned as a Leader in Gartner's Magic Quadrant for Managed Workplace Services, Europe," said Jean-Philippe Bol, CEO of Cloud Infrastructure Services at Capgemini and Member of the Group Executive Board. "In the wake of digital transformation, attracting and retaining talent requires organizations to step up and offer a more flexible environments to their employees. Capgemini's best-in-class services empower its clients with an enhanced workspace to ensure their employees are well connected with each other, their clients and support services, and are able to operate in a more productive way for better outcomes."

Capgemini is committed to investing in technologies that empower and inspire, to meet the complex business requirements of its clients worldwide. Its [Connected Employee Experience](#) services bring a new level of choice and flexibility to employee support, engagement, and interactions. Capgemini offers three core elements that can be delivered individually or integrated together to meet specific requirements: [Connected Workspace](#), [Connected Office](#), and [Connected Employee](#). Each offering complements and adds value to the other, creating an end-to-end value chain that brings advantages to users, IT and organizations.
