As insurers embark on their digital transformation journeys, core modernization is a key requisite to enable their digital strategy. Insurers require that their service providers have a deep understanding of the insurance domain and specific core products, along with accelerators to reduce time-to-market. Everest Group evaluated 15 service providers in its recently released report entitled “Guidewire Services: Core Modernization to Set the Stage for Digital Transformation – Services PEAK Matrix™ Assessment 2018” and named Capgemini as a Leader.
