

SAFe® Advanced SPC Certification Path – version 6.0

Program Overview:

Are you an active SPC ready to take your career to the next level?

By earning the Advanced SPC certification, you'll gain advanced skills to support SAFe organizations and position yourself among the top Lean-Agile experts worldwide.

The **Advanced SAFe® Practice Consultant (ASPC)** certification path equips you with capabilities that enable sustainable transformation. This renewable certification helps experienced SPCs develop long-term transformation strategies, including training leadership in Lean-Agile principles, excelling in Lean Portfolio Management (LPM), and fostering a coaching culture that drives continuous improvement.

To progressively build and validate their skills, participants will engage in a blended learning journey that includes: self-paced learning, instructor-led workshops, and peer-to-peer learning.

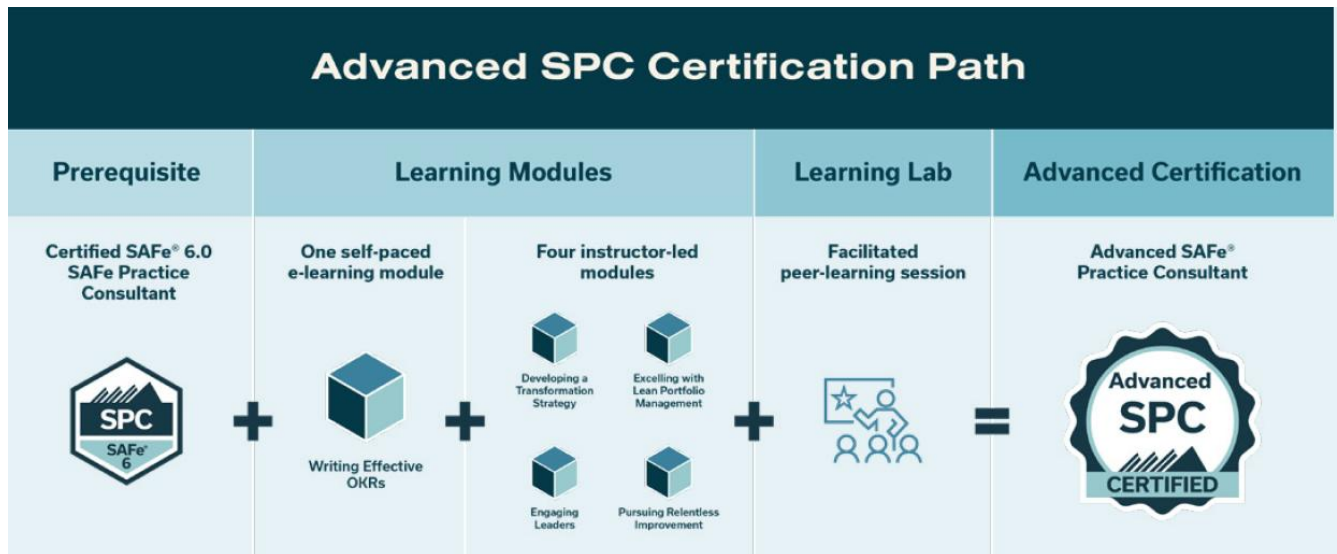

The certification modules culminate in an intensive **Learning Lab Day**—a dynamic session that presents real-world scenarios to test participants' mastery of key concepts.

Learners earn the **Advanced SPC certification** upon completing all modules and passing the certification exam.

Learning Objectives:

- **Performance and Career Advancement:** Elevate your skills. Earn your Advanced SPC certification to validate your competitive edge.
- **A Roadmap for Sustainable Transformation:** Learn how to effectively engage leadership to accelerate and sustain SAFe transformations.
- **Excel in Lean Portfolio Management:** Master LPM practices with new expert guidance.
- **Hands-on Exercises:** Designed to go beyond theory, this training emphasizes practical skills and applications.
- **Supportive Environment:** Apply your prior knowledge in the Learning Lab, with expert guidance and facilitated peer engagement.

Programme de la formation :

- **1x Online Self-Study Module:** A one-hour e-learning module focused on writing effective OKRs to foster alignment, prioritization, and team accountability:
 - *Writing Effective OKRs*
- **4x Instructor-Led Modules:** Four half-day remote group sessions led by an SPC-T, covering topics such as leadership enablement and fostering a culture of continuous improvement:
 - *Developing a Transformation Strategy* (4 hours)
 - *Excelling in Lean Portfolio Management* (4 hours)
 - *Engaging Leaders* (4 hours)
 - *Sustaining Continuous Improvement* (4 hours)
- **2x Peer-Learning Labs:** Two full-day online sessions facilitated by an SPC-T, where learners engage in case-based scenarios to consolidate knowledge gained throughout the training and from real-world experience.
- **1x Certification Exam:** A 60-minute multiple-choice exam.

Who Is This Program For? Exclusively for experienced SPCs with both teaching experience and hands-on SAFe practice.

Prerequisites:

- Hold the **Implementing SAFe 6.0 (SPC)** certification and have active access to **SAFe Studio** as a certified SPC.
- Your **SPC 6.0 license must be renewed** prior to the training.
- SPCs who have not yet upgraded to version 6.0 must do so to access this program.

What's Included:

- Course workbook and access to SAFe Studio for eLearning, workshop and exam preparation, digital badge claiming, and tools to start fulfilling your SAFe role.
- The **Advanced SAFe Practice Consultant (ASPC)** certification exam.

Program Format:

- A one-hour **kick-off meeting** with all participants to get acquainted, validate license activation, and answer questions.
- A mix of theory, practical case studies, and interactive exchanges between participants and trainers.
- The four workshops and Learning Lab are delivered in spoken English.
- Official SAFe® materials (workbook and eLearning) are provided in English.
- The official SAFe® certification is included in the training fee (**first attempt free**, second attempt subject to a fee).
- The certification exam must be taken in English on the SAFe Studio platform within **30 days** of completing the training, provided the full program has been attended.
