

# The Capgemini Schools Programme

**Committed to nurturing talent, skills and creativity**

**People matter, results count.**

A young man with dark, wavy hair, wearing a dark blue school sweater over a white collared shirt and a dark striped tie, is sitting at a desk. He is looking down at a silver laptop screen with a focused expression. The background is a plain, light-colored wall. The top of the page features a dark grey decorative shape with a scalloped edge.

## Supporting schools

Our work with schools is about two things: giving young people the chance to develop and practice employability skills, and sharing our passion for technology.

Enthusiasm for young people about the opportunities that IT can bring is something we are very excited about.

“ It gives (the students) a practical insight into the workings of a fast-paced, dynamic business, and great links between the syllabus and a real life working environment. ”

**The Head of Economics and Business of a London-based all-girls school**

## What we offer:

Interview performance.... Project management....  
 Teamwork....The ability to perform well in professional situations is pivotal to career success, but even the brightest students can struggle with the basics when they first enter the working world.

Our interactive skills workshops bridge the gap between the classroom and the office and help young people apply themselves confidently. Whether hosted at our offices, or delivered in school, our goal is to share the skills of our people with the next generation of business professionals.

The workshops cover:

- IT skills and careers: understanding the value of top rate IT skills in any career in today's world, plus opportunities in digital media, testing and architecture
- Business awareness: basic commercial awareness, project management and the wide variety of roles available in a large corporate organisation
- Communication and teamwork: generating ideas, effective teamwork and communicating differently
- Employability skills: CV writing, interviewing, mock assessment centres, and numeracy

“ Our visit to Capgemini was fantastic as our students were able to get an exposure of being in a prestigious company and they were able to develop key skills through presenting, collaborating and communicating with new audiences. The organisation and support by Capgemini was amazing. ”

**Mr Gough,**  
 Head of Department at  
 Aston Manor Academy

## Did you know?

Capgemini was ranked eighth in a list of the top 20 employers for school and college leavers for 2012/2013. Published by AllAboutEmployerRankings.com in partnership with The Independent newspaper, the top 20 is based on satisfaction surveys completed by those taking part in school leaver programmes, higher apprenticeship schemes and sponsored degree programmes in the UK.

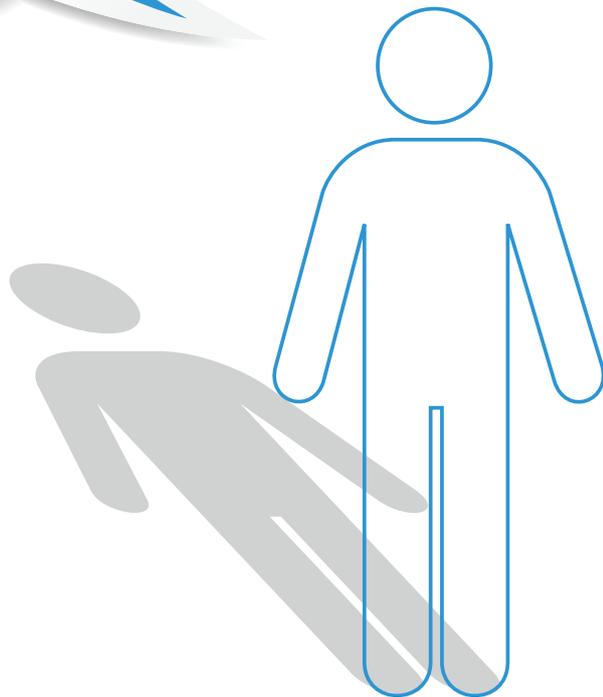

“Your Capgemini speaker was a true inspiration to all pupils. He was professional and personable and spoke highly of Capgemini and was honest and forthcoming with information... he was confident and answered all questions the pupils had to ask.”

**Emer Frayne**  
Head of Business and Enterprise  
at Cleeve Park School.

“Thank you for such a friendly, interesting day.”

**Student visiting our Woking office.**
