

# Ready-to-Run Accelerate Your Results

## Streamline Your Enterprise Technology and Cut Costs

Competing with larger adversaries is difficult; ask a mid-sized company. It faces the same challenges as larger competitors but must address them with fewer staff and less resources.

For the technology challenges, CIO Insight views business growth and intelligence, privacy and security concerns, disaster recovery, and the consolidation of computer operating systems as the key challenges to all companies, large and small. And those are just everyday operational issues. For growth, companies must maintain operating systems that have enough flexibility to ramp up with changing marketing conditions, without

breaking the bank. Often the mid-tier company is called on to address these challenges without a dedicated team trained to manage the necessary IT systems.

**Finally, a mid-market enterprise solution built for you, priced for you and Ready-to-Run.**

Capgemini's Ready-to-Run solution is a predefined, SAP-certified configuration based on our experience in successful implementations; our knowledge of industry best

## A 16-WEEK MANUFACTURING SOLUTION

Reduce Costs, Accelerate Go-To-Market Development, and Manage Your Global Supply Chain in Four Months.

Through Capgemini's engagement with over 150 companies operating in the discrete manufacturing industry, we produced a core set of business process metrics and blueprints within SAP that support:

- A complete business solution to manage your supply chain, including order management, procurement, manufacturing, and distribution, as well as financials and inventory control.
- A variety of manufacturing production models like engineer-to-order, make-to-order, and make-to-stock environments.

- Capgemini's Manufacturing Industry Repository, which will help you embed Key Performance Metrics, leading business practices, and typical improvement opportunities into your organization.

## CUT YOUR IMPLEMENTATION TIME IN HALF

Capgemini and SAP deploy fast, efficient, and stable solutions while lowering the cost of ownership of SAP investments. Deliver SAP 2.0, combined with SAP's Solution Manager, provides the project roadmap as well as the tools, templates, and techniques to accelerate delivery and promote success. Ready-to-Run key templates cover topics such as project plans, month-end close procedures, project governance models, communication plans, and much more.
