

TravelWell is our award winning, holistic approach to sustainable employee travel. Our aim is to support employee wellbeing and safety when travelling, whilst encouraging people to think green and think smart when it comes to travel choices.

With both existing and potential clients showing increasing interest in our environmental performance, as well as renewed global commitments to reduce greenhouse gas emissions, it is essential that Capgemini continues to address our travel emissions.

Additionally, with business travel contributing roughly **£2.5 million every month** to our costs, there are financial savings to be made in smarter travel.

Highlights from 2015 TravelWell (UK) programmes

We launched a number of new initiatives:

- Reintroduction of the **Ride2Work cycle** scheme to encourage cycling as a commuting option
- Reduction of the emissions cap on company cars to **135g CO²/Km**
- Installation of **electric vehicle charging points** at our Aston, Telford, Woking and Toltec
- Roll-out of **Skype for Business** and distribution of 5,000 headsets, to reduce the need for travel
- Introduction of **eRail** and **ticket printing facilities** to make rail travel more convenient
- Introduction of **TravelWell Innovation Days** – regular conferences to help us continuously improve and innovate our travel activities.

Achievements so far

When our travel objective was set in 2008 we recognised that while it was an essential area of focus, it would always pose a significant challenge to the business. Travel to client sites is integral to successful service delivery, as it can help to build and strengthen relationships with clients and ensuring we are effective and efficient.

Travel accounts for over **30%** of Capgemini UK carbon footprint – making it our second largest environmental impact after data centres

We are proud to have achieved an overall reduction in annual travel emissions of around

3,600 tonnes CO² – equating to savings of over **£6 million**

“I strongly believe that TravelWell enables employees to deliver greater value. By travelling smarter, safer and looking after our wellbeing, significant environmental and financial benefits are delivered, far exceeding my expectations.”

Tony Deans, Executive Sponsor

About Capgemini

Now with 180,000 people in over 40 countries, Capgemini is one of the world's foremost providers of consulting, technology and outsourcing services. The Group reported 2014 global revenues of EUR 10.573 billion. Together with its clients, Capgemini creates and delivers business, technology and digital solutions that fit their needs, enabling them to achieve innovation and competitiveness. A deeply multicultural organization, Capgemini has developed its own way of working, the Collaborative Business Experience™, and draws on Rightshore®, its worldwide delivery model.
