

# Workday Health Check and Release Optimisation

Implementation is just the beginning... let us help you realise the full potential of your Workday investment. Capgemini offers end-to-end tailored Workday services to help ensure that your most important asset becomes and remains a competitive advantage.

Your business is constantly evolving, so too is your Workday platform. With two major releases each year, plus weekly updates, the level of change is significant. Whilst from a functionality point of view this is fantastic, keeping up to date with these changes can be challenging and time consuming. On top of this, as your organisation becomes a more mature Workday user, we have a wealth of transactional history and real-world user experiences to draw upon when shaping your Workday roadmap. That is why we offer you the support necessary, when you need it, to make sure you are optimising your Workday solution and keeping up to date with the latest HR and Financial trends.

## Capgemini's Release Optimisation Services & Community:

Our services are designed to provide the right level of support, at the right time to complement our customers' own support investment. The focus is to sustain a solid and robust Workday platform, and to help you grow your HR or Finance capability, leveraging the best features from Workday.

Benefit from our expertise by joining our complimentary Workday User Group for monthly tips & tricks to help you optimise your Workday platform.

## Update Analysis & Planning

- Analyse & Present the latest Workday opportunities
- Align planned updates with your organisation's Workday setup
- Provide a detailed plan of how to uptake & test
- Create/modify test plans & scripts to fully test the updates
- Sign up for our Health Check offer to review your Workday set up.

## Integration Optimisation

- Evaluate integration Workday Updates
- Analyse organisational changes and impact to integrations
- Integration regression testing
- Vendor alignment and impact control between client and vendor systems

## Change Management

- Review & analyse Organisation Changes and how this impacts your organisation tools
- Time critical support to manage business change i.e. acquisitions, mergers, reductions, divestitures
- Engage with internal/ external vendors to ensure a smooth transition organisationally & systematically

## Additional opportunities for our live customers:

Alongside our Post-Production and Release Optimisation services, Capgemini also offers an end to end application maintenance and development catalogue of services, to meet each of our individual customer needs. Services include:

- Assistance with report writing, security configuration and business processes.
- Post-production enhancements, including additional module deployment and support with new vendor integrations.

## How will you benefit?

By utilising the expertise offered by Capgemini, a trusted Workday partner you will be able to:

- Easily access and identify which new features will best benefit your organisation.
- Successfully test and deploy these new features – ensuring a robust optimised live platform.
- Free up resources by reducing the strain on your team and allow them to focus on more strategic HR and organisational goals to help drive your business forward.
- Leverage our full suite of services, benefiting from our experience of more than one thousand HCM solution implementations.
