Capgemini wins two 2021 BIG Innovation Awards

Paris, February 22, 2021 – Capgemini today announced that it has been honored with two awards, for its CV-up Powered by Artificial Intelligence and DeepScan solutions, at the 2021 [BIG Innovation Awards](#) from the [Business Intelligence Group](#). This annual business awards program recognizes the organizations, products, and people that are bringing new ideas to life in innovative ways.

Sébastien Guibert, Global Head of Intelligent Automation at Capgemini's Business Services, said, "We recognize the huge impact that intelligent automation can make to speed-up manual and tedious processes like managing a variety of documents, such as CVs, by HR and accounts departments. Our solutions replace outdated, time-consuming, and labor-intensive systems with frictionless operations and error-free outputs, and we are honored to be recognized for our contributions by the Business Intelligence Group."

Capgemini's CV-up Powered by Artificial Intelligence and Deepscan are part of Capgemini's [AI solution set](#) that helps clients operationalize data and AI's transformative powers at scale within their businesses.

"More than ever, the global society relies on innovation to help progress humanity and make our lives more productive, healthy and comfortable," said Maria Jimenez, Chief Operating Officer of the Business Intelligence Group. "We are thrilled to be honoring Capgemini as they are one of the organizations leading this charge and helping humanity progress."

CV-up Powered by Artificial Intelligence is a text analysis and process automation solution created to accelerate the analysis of curriculum vitae (CV) and other specific business documents.

DeepScan is a fully automated, AI-based solution that quickly tackles data extraction from across multiple documents in various formats, while also making it more accurate and seamless. It is trained via machine learning on millions of documents from multiple sources, clients, and domains, including invoices, payment notices, sales orders, reminders, and HR documents such as CVs. The tool's sophisticated AI-based image processing technology enables it to handle low-quality documents too.

About Capgemini

Capgemini is a global leader in partnering with companies to transform and manage their business by harnessing the power of technology. The Group is guided everyday by its purpose of unleashing human energy through technology for an inclusive and sustainable future. It is a responsible and diverse organization of 270,000 team members in nearly 50 countries.
