- NEWS ALERT -

**Capgemini Named a Leader in the SAP Services Providers space
By Independent Research Firm**

India, 31 May 2011 - Capgemini, one of the world's foremost providers of consulting, technology and outsourcing services, today announced it has been named a leader in an independent report about SAP Services Providers by Forrester Research, Inc.

Capgemini was among the selected companies that Forrester invited to participate in its April 20, 2011 report, “The Forrester Wave™: SAP Services Providers, Q2 2011”. The report assessed 19 SAP services providers across 65 criteria. In this evaluation, Capgemini was cited as a “leader” among global SAP Services Providers.

The Forrester report describes Capgemini in its vendor summary as follows: “*Capgemini offers a solid mix of technical expertise, strategy consulting, and ongoing maintenance, support, and hosting. The provider does a significant percentage of its work in EMEA — but also has strong presence across North America and Asia Pacific. Capgemini invests heavily in innovation around technical development — such as cross industry initiatives around SOA and its industry-specific “Ready to Run” prebuilt solutions. Capgemini also leverages third-party tools, such as iRise for visualization, where appropriate and where it sees a value-add for clients.*”¹

“We feel that it’s a great achievement for Capgemini to be recognized as a leader in SAP services”, said Christophe Lacroix, Global SAP Lead at Capgemini. “*Our team takes pride in working closely together with SAP as a key implementation partner to deliver solutions to over 6500 client sites and over 2200 companies worldwide, through our Rightshore® global delivery model. We work to provide a full range of services across the entire lifecycle of an SAP implementation including design, implementation, hosting, production support, and efficient long-term system maintenance and management.*”
