**Minimal business downtime during cut-over**

# Planning to upgrade to Oracle EBS12.2? Looking for future steps?

Our offering fits your needs right from the **Evaluation stage to Delivery and even Future Roadmap.**

## Pre-Assessment Accelerators

- Upgrade Kick-Starter comprising pre-built questionnaire
- Rapid Assessment Scripts for quick effort rightsizing
- Upgrade duration catalogue

## Assessment Accelerators

- Automated assessment accelerator to ensure accurate yet expedited identification of customizations (CEMLIs)
- One-stop comprehensive report for impacted CEMLI

## Architectural Versatility

- Rich experience in delivering technical upgrades for diverse combinations of EBS applications release, database release and operating system platform

## EBS Upgrade Factory Approach

- Unique EBS Upgrade Factory framework built on extensive experience of past EBS upgrades
- Proven SOPs (standard operating procedures) for upgrade execution and organized cutover strategy ensuring minimal business downtime

## Customizations

- Rationalization of existing customizations as applicable
- Capability to customize out-of-the-box mobile app
- Build custom ECC dashboards as per business needs

## Multiple Test Cycles and Accelerators in Testing Phase

- Repository of 1100+ re-usable test scripts for Oracle EBS 12.2
- Multiple test cycles (including unit testing, sanity testing, integration testing, user acceptance testing, performance testing and security testing) to minimize risk
- Capgemini Application Testing is ranked as the Global Leader in the December 2019 Gartner Magic Quadrant report

## User Training Approach

- We ensure user community comes up to speed with EBS 12.2 environment through our Train-the-Trainer approach

## Upgrade Experience

- Pool of certified Oracle consultants with abundant experience in EBS upgrades across industry sectors
- Highly collaborative and partnership driven approach that fosters transparency and trust

## Flexible Delivery Model

- Capgemini's Rightshore Delivery Model assures a cost-effective realization of Oracle EBS Upgrade

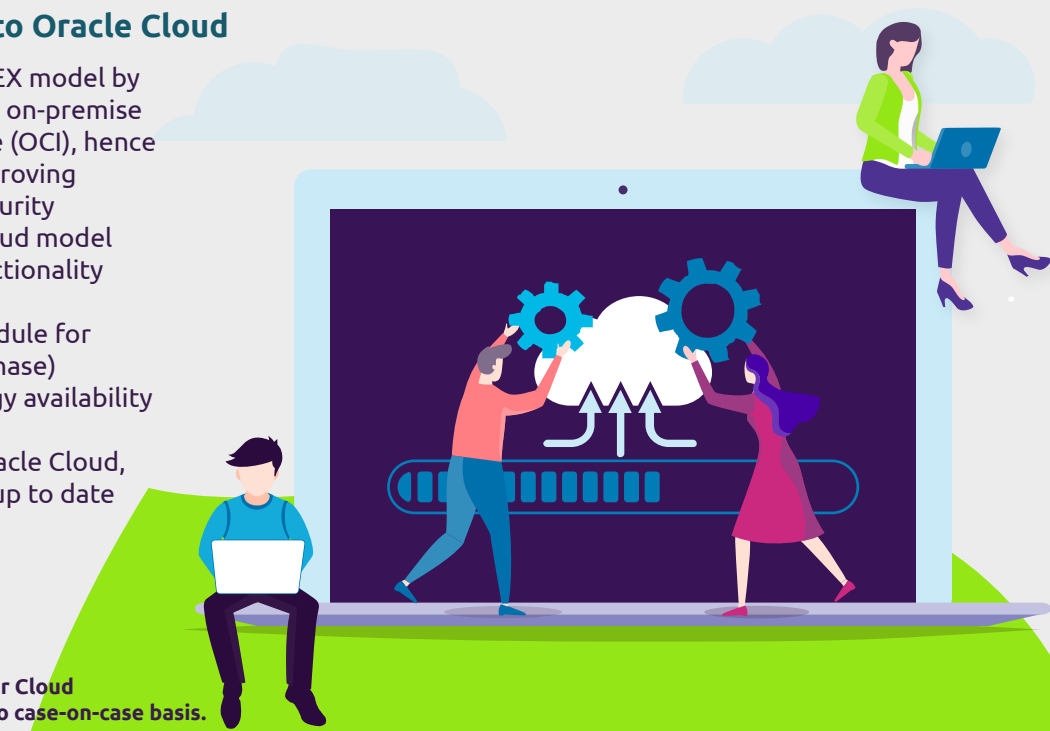

## HyperCare Support and Post-Production Support

- Post go-live HyperCare Support and Post-Production Support as per client's requirement
- Longstanding experience in providing managed services

## Embark on your journey to Oracle Cloud

- Transition from CAPEX to OPEX model by migration of EBS system from on-premise to Oracle Cloud Infrastructure (OCI), hence reducing infra costs while improving availability, scalability and security
- Implementation of Hybrid Cloud model to move certain module / functionality to Oracle SaaS
- Flexible implementation schedule for Oracle SaaS (including Pilot phase)
- Latest and greatest technology availability
- Reduced technical debt
- Frequent patch updates in Oracle Cloud, keeping environment always up to date

\*\* Future Roadmap paves the path for your Cloud transformation journey and is subject to case-on-case basis.
