**Capgemini and Autodesk strengthen their collaboration
for the delivery of a comprehensive Building Information Modeling platform
and Digital Transformation services**

Capgemini becomes the first Authorized Autodesk System Integrator

Paris and California, December 1, 2021 – [Capgemini](#), business and technology transformation leader, and [Autodesk, Inc.](#), a leader in 3D design, engineering and entertainment software, announced today that they have signed a global collaboration framework agreement, enabling them to join forces to deliver end-to-end Building Information Modeling (BIM) platforms and transformation programs. Capgemini becomes the first Authorized Autodesk System Integrator, playing a key role in the development of the program.

[Capgemini entered into a global agreement with Autodesk in 2019](#) in order to deploy a 360° Building Information Modelling (BIM) platform, named [Reflect^{IoD}1](#), for building and infrastructure operators.

At a time when BIM and Digital Twins² are becoming industry standards, asset and infrastructure operators have to make the most of their existing infrastructures while preparing and building the next generations, leveraging consistently the full power of digital and cloud all along their life cycle. This new agreement allows Capgemini and Autodesk to deliver end-to-end Building Information Modeling (BIM) platforms and transformation programs, from advisory services to implementation and change management services, as well as platform operations services.

"Technological convergence must go hand in hand with extended ecosystems to make intelligent industry a reality. Collaborations around unified data is the very essence of a digital twin. This consolidated partnership with Autodesk brings a unique combination of expertise and assets to deliver value at speed to asset and infrastructure industries, from design to operate," says Jean-Pierre Petit, Capgemini's Digital Manufacturing Global Offer Leader.

"Our Autodesk platform technologies enable our customers to fundamentally transform their business across Design, Make, Build, and Operate in key industries. Key for successful business transformation, at wider scale, in a timely and concise manner, means realizing the full impact of that transformation, and minimizing risks. Capgemini is a strong partner that offers help with a unique combination of skills and services on strategy, technology, engineering, and information technology in a very proficient and proven way," highlights Michael Russell, Director of Partner Services Ecosystem.

About Autodesk

Autodesk is changing how the world is designed and made. Our technology spans architecture, engineering, construction, product design, manufacturing, media and entertainment, empowering innovators everywhere to solve challenges big and small. From greener buildings to smarter products to more mesmerizing

¹ Reflect^{IoD} is a cloud-enabled and secure digital twin platform taking full advantage of Autodesk Forge APIs, enriched since with Microsoft's Azure Digital Twins capabilities.

² A digital twin is a virtual replica of a system to model, simulate and constantly optimize the physical world.

blockbusters, Autodesk software helps our customers to design and make a better world for all. For more information: www.autodesk.com

About Capgemini

Capgemini is a global leader in partnering with companies to transform and manage their business by harnessing the power of technology. The Group is guided everyday by its purpose of unleashing human energy through technology for an inclusive and sustainable future. It is a responsible and diverse organization of over 300,000 team members in nearly 50 countries. With its strong 50-year heritage and deep industry expertise, Capgemini is trusted by its clients to address the entire breadth of their business needs, from strategy and design to operations, fuelled by the fast evolving and innovative world of cloud, data, AI, connectivity, software, digital engineering and platforms. The Group reported in 2020 global revenues of €16 billion.
