# X-IoT

An agnostic and secure  
device management  
platform

# X-IoT

## Connecting the physical to the IT worlds to improve products and assets performance and usage

Beyond automation, at a time when connectivity, data and collaboration will make the difference, X-IoT offers to stakeholders a fully configurable and agnostic solution to securely manage and connect products and assets:

- Smart city, buildings,
- Track and trace (containers, logistics...),
- Action grid,
- Connected products (medical devices, autonomous cars...),
- Asset tracking and monitoring,
- Smart inventory
- Preventive and predictive maintenance & quality
- Robotics for product testing.

### X-IoT is the only platform:

- 100% focused on device management,
- Devices, protocols and Cloud platforms agnostic
- Fully configurable and highly secured
- Edge & Cloud mirroring architecture
- Multi-tenant
- Edge Analytics management
