## **Everest Group names Capgemini a Leader in Enterprise Platform IT Services in Banking and Financial Services**

**Paris, August 27, 2019 – Capgemini today announced that it has been named a Leader in Everest Group’s inaugural Enterprise Platform IT Services in Banking and Financial Services (BFS) PEAK Matrix™<sup>1</sup> assessment for its ability to provide client-specific business transformation, innovation, and operational excellence.**

*"Banking and Financial Services firms are shedding their legacy systems to enhance customer experience, reduce time to market, augment operational efficiency, and manage evolving regulations. A platform-first approach to scale their digital capabilities at speed is pushing BFS firms to adopt third party enterprise platforms or products," said Ronak Doshi, Practice Director, Everest Group. "Credible market success, driven by a targeted go-to-market approach for large and mid-sized BFS firms, investments in developing end-to-end platform services capabilities via strategic partnerships with leading BFS industry-specific platform vendors, and appreciation by clients on platform assessment and integration services have helped Capgemini secure a position as a Leader in the inaugural Everest Group Enterprise Platform IT Services in BFS PEAK Matrix™ assessment."*

Twenty service providers were evaluated in this inaugural PEAK Matrix™ for their market impact.

*"We believe that what sets Capgemini apart from our competitors in the enterprise solutions space is our ability to provide end-to-end enterprise services from advisory through to solutioning, implementation and maintenance," said Nilesh Vaidya, Global Practice Lead for Banking and Capital Markets at Capgemini’s Financial Services. "Our deep relationships and joint go-to-market with leading Enterprise Solutions providers meets the increasing need for enterprise solution adoption in the industry and we are honored that the Everest Group PEAK Matrix™ recognized our capabilities by placing us as a Leader in their assessment."*
