

# Measuring the automation advantage

Accelerate your legacy IT with cloud automation

Fast Movers—the top 20% in our survey—see much greater business and operational returns from automation than the 20% at the other end of the scale—the Followers

## Cloud automation impact

## More automation = More innovation

Fast Movers get more than just lower costs

## How to become a Fast Mover

1. Define an automation strategy that meets your business objectives
2. Leverage Platform-as-a-Service
3. Automate provisioning of infrastructure and CI/CD pipeline
4. Build a governance model, processes, and culture for DevOps

## Get the insights you need

Are you a Fast Mover or a Follower?
