EnergyPath
A leading SAP-Certified Digital Core Solution for Oil & Gas

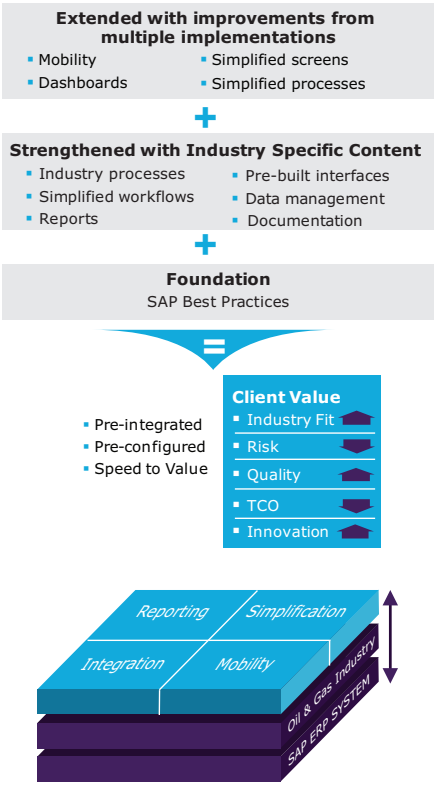
Designed specifically to meet the needs of Oilfield Services and Midstream industries

Given the current opportunities in the rapidly-changing Energy market, successful Oil and Gas companies can't slow growth by tying up precious capital funds and can't afford a long, drawn out implementation of an ERP system. However, many of these Oil & Gas companies are struggling to scale up to the current market expansion and unlock the true potential of the business, due to outdated and disjointed systems. Let us show you how we can lower/eliminate upfront capital cost of acquiring, implementing and supporting a world-class SAP solution, built on the latest S/4HANA 1709 digital core, while drastically reducing the time to implement.

Capgemini's EnergyPath for Oilfield Services and Midstream companies offers two striking benefits:

1. An accelerated approach to implementing SAP.
2. A true Leading Practice solution for the industry which vastly improves the underlying work processes, whether you are implementing SAP from scratch or optimizing your existing implementations. It has a number of unique differentiators which are already in use at your peer companies today. EnergyPath simplifies SAP for field and key personnel and works very effectively in the background, providing the key information for companies to focus on managing their business.

Capgemini

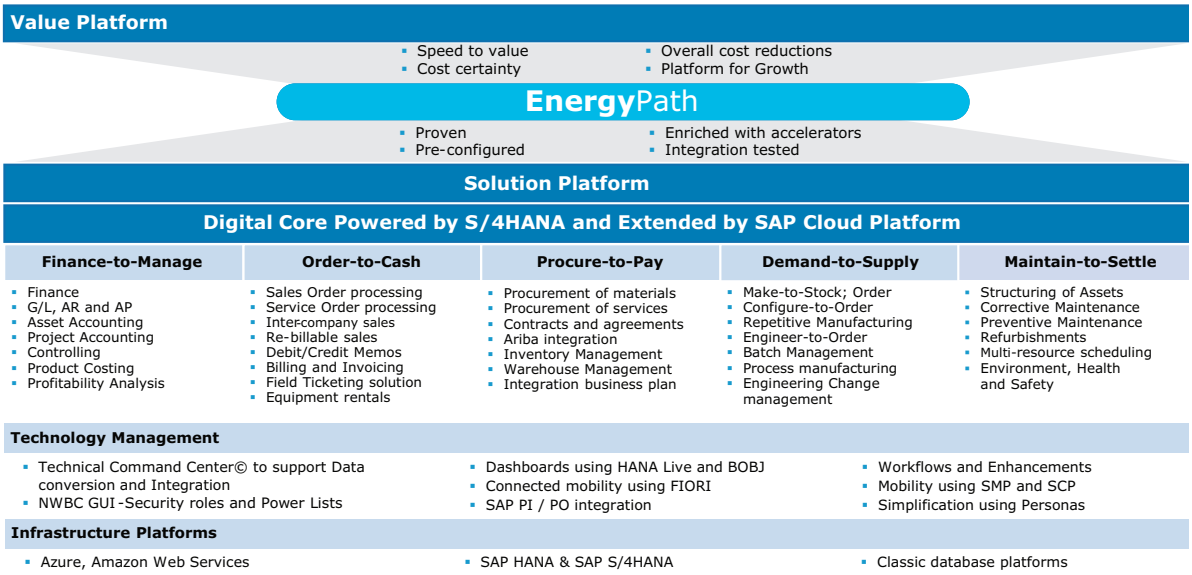


New Implementations

Capgemini will work with your organization to deploy a fast, efficient and stable EnergyPath solution, which incorporates leading practices developed from an extensive legacy of Capgemini-led SAP implementations.

Based on several successful installations over the past 10 years, EnergyPath delivers a host of benefits for new implementations, such as:

- SAP configuration and enhancements, pre-built specifically for your industry. Ability to conduct "Show and Tell" sessions with real business processes, screens and data
- Accelerated implementation timeline, business blueprint process maps, training and technical documentation
- Optional Mobility, Enterprise Portal and Business Intelligence for ease of use
- Robust iCaptivate methodology, bundled with SAP's Solution Manager, to offer reliable, effective implementations. Implementations have been completed in under 100 days versus typical 8 to 10-month timelines. Our EnergyPath solution is flexible and can accommodate the needs of varying client situations with optional plug-and-play components
- EnergyPath can be leveraged as a reference model to accelerate the requirements and design project phases
- EnergyPath can be packaged as a comprehensive SAP solution, including SAP licenses and infrastructure licenses
- Fully integrated offline capable solution for the management of field tickets
- Capgemini's Infrastructure and Application Maintenance services as an alternative to purchasing new equipment and training support resources



Capitalize and Improve on your Existing SAP Investment

EnergyPath not only enables companies with a proven framework to implement a new system, it can also serve as an excellent reference system to improve existing implementations within Oilfield Services and Midstream companies.

EnergyPath provides an environment that streamlines operations and provides greater visibility and control of core business processes, enabling better decision-making for quick response to industry challenges.

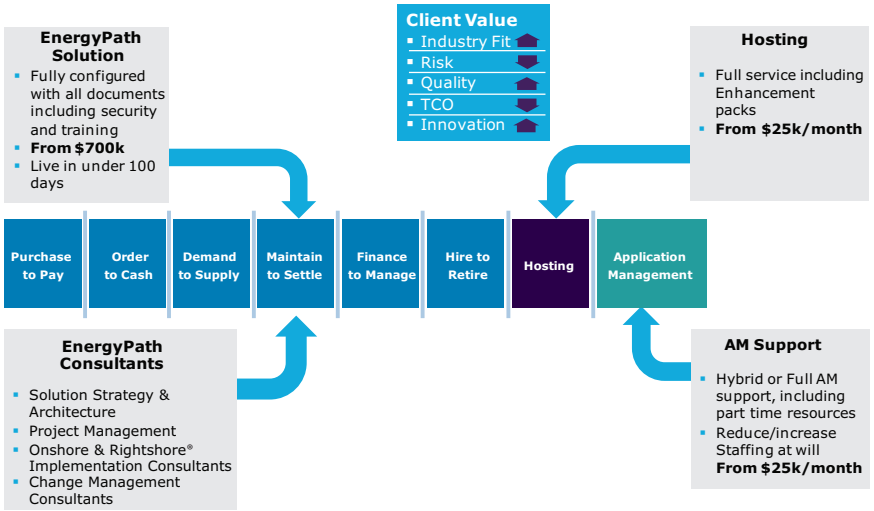
Examples of the types of improvement you can expect are:

- Going mobile: whether field personnel management, maintenance or bar-code inventory movements or approvals on mobile devices
- Bringing together ERP and Operational worlds together to deliver real time insights and drive value from your data.
- Simplifying system usage for casual users and field personnel through much more simplified screens via FIORI and SAP Cloud Platform.
- Going CLoud: We can deploy EnergyPath on premise, Private or Public Cloud.
- Support your 2-tier ERP approach

The Capgemini-SAP relationship has resulted in a long-standing history of providing successful, customized solutions that meet or exceed client expectations. Whether it's business case development or systems integration, Capgemini has deep experience in key strategic areas including:

- SAP Roadmap/Optimization Services
  - Whether you're just starting the ERP journey or looking to maximize your existing investment
- SAP Implementation Services
  - Leveraging Capgemini's proprietary, pre-configured solution, EnergyPath, to reduce your implementation time, cost, and risk.
- SAP Infrastructure
  - Global-Certified SAP Cloud Infrastructure Partner
- SAP Application Management
  - From teams ranging from 5 to 500,000 FTEs, Capgemini provides scalability and flexibility to support your entire SAP enterprise.
- Reporting and Analytics
  - Pre-built dashboards and key performance indicators library, constructed for your industry
- Mobility
  - Leverage SAP Mobile Platform to increase productivity in the field and on-the-go
- Collaboration, Engagement and Simplification
  - Extend and harness the power of your SAP investment with our FieldSite application. FieldSite supports cloud based, big data, offline, mobile platform for management of field tickets

With Capgemini as a single-source service provider managing your SAP solution, you will realize all of the operating benefits and competitive advantages you're looking for – hassle-free, at a price you can readily afford, today and in the future.



Capgemini: A leading SAP implementation partner, a collaborator in your success

Capgemini is a world leader in enterprise resource planning and digital transformation. We're also an SAP Platinum Reseller Partner and an SAP Global Services Partner. We provide the expertise you need to make sure your SAP projects, migrations, and digital-transformation road maps deliver the results you want.

As a global SAP partner, Capgemini is one of the largest and most experienced SAP systems integrators. Our 17,500 SAP practitioners leverage Capgemini's four decades of SAP experience to serve 1,300 clients around the world. With more than 3,500 certified resources, we're number one in SAP S/4HANA certifications in Europe and number one in SAP certifications overall.

Our experts collaborate closely with you throughout your SAP journey. Focusing on your specific industry and your unique needs, we drive value and results through design, licensing, implementation, infrastructure, and application management. Capgemini works with you to make sure you can fully leverage SAP technology and become an intelligent enterprise. You benefit from our SAP centers of excellence, proven SAP implementation methodologies, and preconfigured SAP solutions.

Change is not new

What's new is the speed at which it's happening. Adapting to new business models and solving ever-more complex problems leads companies to transformation enabled by the intelligent suite of applications with SAP S/4HANA® as the Digital Core.

The next generation of certified industry focused Path solutions and Capgemini's multi-platform SAP S/4HANA architecture approach allows clients to accelerate their digital transformation journey, enabled by a data-driven platform for innovation, capable of transforming your business into a Renewable Enterprise™.

SAP OnePath Solutions as an Operating Expense

You can take advantage of all the benefits of the SAP environment right now, yet eliminate up-front capital expenditures. Capgemini has partnered with SAP to package SAP solutions as a service that can include licensing, infrastructure, implementation, maintenance, and even application management and business process outsourcing. Complexity is dramatically reduced by the bundling of software and services, giving you 'one hand to shake' to get things done. Further, ROI is significantly accelerated, and most businesses can write off monthly fees as an operating expense. With Capgemini as your exclusive service provider, performing all aspects of an SAP solution deployment, you get the freedom to use SAP right now — without the traditional up-front investment in hardware or software. Perhaps best of all, this solution is still configured by Capgemini to meet your specific business needs.
