

ChemPath — A Holistic Approach to Accelerate Digital Transformation in the Chemical Industry

Chemicals companies are at an inflection point with their technology strategies. They face pressure to contribute to margin uplift, as well as the challenges of integrating back-office technology with manufacturing. Given the current opportunities in the rapidly-changing Chemicals market, successful companies can't slow growth by tying up precious capital funds and can't afford a long, drawn out implementation of an ERP system. Many Chemical companies are struggling to scale up to the current market expansion and unlock the true potential of the business, due to outdated and disjointed systems.

Let us show you how we can lower/eliminate upfront capital cost of acquiring, implementing and supporting a world-class SAP solution, while drastically reducing the time to implement. Whether you are new to SAP or ready to get more out of your current investment, Capgemini has the technology expertise and the industry experience designed to get you there, faster.

Capgemini's ChemPath for Chemical companies offers two striking benefits:

- An accelerated approach to implementing SAP.
- A true Leading Practice solution for the industry which vastly improves the underlying work processes, whether you are implementing SAP from scratch or optimizing your existing implementations. It has many unique differentiators which are already in use at your peer companies today. ChemPath simplifies SAP for users and works very effectively in providing the key information for companies to focus on managing their business.

ChemPath is Capgemini's SAP-Certified Digital Core Solution for the Chemicals Industry designed for streamlining your operations while gaining greater visibility and control over your core business processes. Capgemini will work with your organization to deploy a fast, efficient and stable ChemPath solution, which incorporates leading practices developed from an extensive legacy of Capgemini-led SAP implementations.

Based on several successful installations over the past 10 years, ChemPath delivers a host of benefits for new implementations, such as:

- SAP configuration and enhancements, pre-built specifically for your industry. Ability to conduct "Show and Tell" sessions with real business processes, screens and data
- Accelerated implementation timeline, business blueprint process maps, training and technical documentation
- Mobility, FIORI for Usability and Business Intelligence for ease of use
- Robust iCaptive methodology powered by Activate, bundled with SAP's Solution Manager, to offer reliable, effective implementations.
- Our ChemPath solution is flexible and can accommodate the needs of varying client situations with optional plug and play components
- ChemPath can be leveraged as a reference model to accelerate the requirements and design project phases
- ChemPath can be packaged as a comprehensive SAP solution, including SAP licenses and infrastructure licenses
- Capgemini's Infrastructure and Application Maintenance services as an alternative to purchasing new equipment and training support resources

Comprehensive Offering for its ChemPath Customers:

ChemPath enables Digital Transformation by delivering a Digital Core at the heart as shown in the picture below.

- ChemPath Digital Core comprising of Digital Core Functional Modules, 175+ Best Practice Scenarios, Innovation List, Simplification List, Fiori User Interface Applications and SAP Certification
- ChemPath Integrated Digital Platform (4-in-a-Box) comprising of ChemPath S/4HANA 1709, Solution Manager 7.2, LIMS and Digital Delivery Framework design & build platform
- Capgemini Strategic IP Package comprising of Knowledge Hub, Country Specific Localization Tool Kit, Chemical Industry Specialty Scenarios, MES Integration Capabilities, Process KPI Library, LIMS best practices and numerous POV/White Paper documents specific to Chemicals industry
- Capgemini Strategic Program Delivery Package comprising of UPM Delivery Methodology, iCaptivate-Agile Implementation Content (Program Road Map, Program Governance Plan, Benefits Realization Plan, Functional Design Documents, Functional Specifications Documents, Technical Specifications Documents, Business Process Flow Diagrams, Translated forms for global shipping, Business integration scenarios, Test Scenarios & Scripts, Business Process Procedure, Training Content, Data Migration Plan, Cutover Plan, Business Transition Plan, Site Readiness Plan, Hyper Care Plan, etc.)

ChemPath Differentiators

- Plug-n-Play pre-integrated business suite platform comprising of ChemPath S/4HANA software, Solution Manager 7.2 Digital (Beta Release), Cloud-based Digital Delivery Framework (DDF) and LIMS Integration.
- Pre-loaded with 175+ SAP best practice scenarios (including 61 focused scenarios for Chemicals), fully tested, documented and ready to deploy
- DDF preloaded with full process decompositions (L1 through L4) for chemicals industry, business process design documents and test scripts
- DDF preloaded with Capgemini's iCaptivate-Agile methodology (Super set of SAPActivate) with full implementation content including project management best practices & tools
- Country-specific localization kit pre-packages print-ready local forms, as well as fully documented country-specific configuration elements, to support local regulations and statutory requirements

- 'Plug-n-Play' and 'out of the box' interfaces to seamlessly integrate ChemPath with LIMS application
- Capgemini's 'Core Integration Framework' unleashes a rich tool box of design patterns, decision trees, development objects, and tools for world-class enterprise-wide applications integration

Capgemini: A leading SAP implementation partner, a collaborator in your success

Capgemini is a world leader in enterprise resource planning and digital transformation. We're also an SAP Platinum Reseller Partner and an SAP Global Services Partner. We provide the expertise you need to make sure your SAP projects, migrations, and digital-transformation road maps deliver the results you want.

As a global SAP partner, Capgemini is one of the largest and most experienced SAP systems integrators. Our 17,500 SAP practitioners leverage Capgemini's four decades of SAP experience to serve 1,300 clients around the world. With more than 3,500 certified resources, we're number one in SAP S/4HANA certifications in Europe and number one in SAP certifications overall.

Our experts collaborate closely with you throughout your SAP journey. Focusing on your specific industry and your unique needs, we drive value and results through design, licensing, implementation, infrastructure, and application management. Capgemini works with you to make sure you can fully leverage SAP technology and become an intelligent enterprise. You benefit from our SAP centers of excellence, proven SAP implementation methodologies, and preconfigured SAP solutions.

Change is not new

What's new is the speed at which it's happening. Adapting to new business models and solving ever-more complex problems leads companies to transformation enabled by the intelligent suite of applications with SAP S/4HANA® as the Digital Core.

The next generation of certified industry focused Path solutions and Capgemini's multi-platform SAP S/4HANA architecture approach allows clients to accelerate their digital transformation journey, enabled by a data-driven platform for innovation, capable of transforming your business into a Renewable Enterprise™.

SAP OnePath Solutions as an Operating Expense

You can take advantage of all the benefits of the SAP environment right now, yet eliminate up-front capital expenditures. Capgemini has partnered with SAP to package SAP solutions as a service that can include licensing, infrastructure, implementation, maintenance, and even application management and business process outsourcing. Complexity is dramatically reduced by the bundling of software and services, giving you 'one hand to shake' to get things done. Further, ROI is significantly accelerated, and most businesses can write off monthly fees as an operating expense. With Capgemini as your exclusive service provider, performing all aspects of an SAP solution deployment, you get the freedom to use SAP right now — without the traditional up-front investment in hardware or software. Perhaps best of all, this solution is still configured by Capgemini to meet your specific business needs.
