Capgemini positioned in “Leaders” Quadrant in Gartner’s Magic Quadrant For Finance and Accounting BPO

Paris, 13 June 2014, [Capgemini](http://www.capgemini.com), one of the world’s foremost providers of consulting, technology and outsourcing services, today announced that it has been positioned as a leader by Gartner, Inc in the latest “Magic Quadrant for Finance and Accounting BPO” ¹.

Christopher Stancombe, CEO for Business Process Outsourcing at Capgemini, said: *“We are pleased to once again be recognized by Gartner as a leader positioned the furthest for completeness of vision. We believe it is an important testament to the talent we have across our wide global delivery network, our deep industry knowledge, and the confidence of our clients in us to deliver world-class outcomes. Our ability to bring both innovation and excellence in execution to our clients is paramount for us. This year sees the launch of new offerings such as our enhanced Global Enterprise Model 5.0 to accelerate and de-risk business process transformation. We are confident that this clear vision and continued investment will help maintain our position in a market where clients rightly demand more from BPO.”*

Gartner defines comprehensive F&A processes as the outsourcing of three or more finance processes to a single provider. This report analyzes leading providers of F&A BPO that have met the criteria of \$40 million or more in F&A BPO revenue. The market is differentiated by the scale of delivery that F&A BPO vendors have experience with; for example, several providers support complex, global deals, while others focus on supporting midsize corporations, or just one industry, or just one country, such as the U.K.

With over 10,000 FTEs in F&A BPO, Capgemini has a diverse base of BPO delivery centers internationally. Its strategy is to build deeper and broader offers integrating sector knowledge, technology and process excellence to deliver efficiency, effectiveness, control and value.
