

Capgemini's Diamond Level Partnership with Oracle

What it means for you

Capgemini was one of the first companies to be named a global Diamond level partner by Oracle. Achieving this status – the highest in the Oracle Partner Network (OPN) Specialized program – confirms our expertise in implementing Oracle products and in helping customers worldwide accelerate their growth and success.

Why is our Diamond Status so valuable?

The new OPN Specialized program allows Oracle users and prospective users to identify solution providers with the specific expertise that they need across all of Oracle's products. And being in the top league of the program means Capgemini can support you with Oracle knowledge and experience that is both broad and deep.

Our Diamond status recognizes that we:

- Have practical experience implementing and supporting virtually all Oracle products
- Have a large volume of consultants worldwide certified in Oracle skills and competencies
- Have an extensive record of successful deliveries of Oracle systems
- Are a global company and can support Oracle implementations worldwide
- Are a trusted Oracle partner able to implement its products at a practical level
- Are closely aligned with Oracle – we can get issues resolved quickly and understand enhancements and new products that are in the pipeline

Attaining Diamond level

Oracle has established stringent requirements for achieving the exclusive Diamond level status. The few partners who attain this status have met Oracle's criteria in four areas: specialization, quality and references, revenue, and go-to-market solutions. Partners at this level work very closely with Oracle across multiple product and solution areas.

Capgemini and Oracle – a well established partnership

Capgemini's partnership with Oracle dates back to the 1990's and has strengthened greatly in recent years. Capgemini is consistently ranked among the top six global integrators of Oracle applications and is the largest and most significant Oracle partner in Europe. A recognized leader in implementing Oracle, we consistently receive high ratings from analysts like Forrester. Gartner also named Capgemini as a leader in the Gartner Magic Quadrant for Oracle Applications Implementation Services, Worldwide¹. Capgemini has also exceeded the requirements for many of its attained specializations and advanced specializations and we have a large number of well differentiated Oracle-based applications and services that we provide, host, and support. In addition, Capgemini:

- Counts a global team of over 13,500 experienced Oracle professionals, 70% of which are Oracle-certified consultants
- Has 46 specializations across Oracle products/solutions inclusive of 13 advanced specializations
- Has 15 Oracle-approved global solution offerings across various industry sectors
- Led over 3,600 successful implementations of Oracle applications around the globe across all industry sectors

Capgemini has also received multiple awards from Oracle. Most recently, we were recognized for the following awards:

- Specialized Partner of the Year for Business Analytics (France)
- Oracle Excellence Award in BI and EPM (Spain)
- Specialized Partner of the Year for Applications (Netherlands)
- Oracle BPM Partner Community Award

Together, Capgemini and Oracle can help you:

- Reinvent your business model and realign your organization and resources accordingly
- Use technology to reach new markets
- Introduce new products and services
- Achieve higher profits in your existing business
