## 2007 Third Quarter Revenues up by 11%

**Paris, November 7, 2007** - The Capgemini Group has published consolidated revenue figures for the third quarter of 2007 of **€2,088 million** against €1,881 million for the third quarter of 2006, which shows growth of 11% at current rates and perimeter. At constant rates and perimeter, this growth is 6.2%.

Q3 2007 Revenues	Variation	Q3 2006 Revenues	Q3 2007/ Q3 2006
<b>€2,088 M</b>	at current rates and perimeter	<b>€1,881 M</b>	<b>+ 11.0%</b>
	at constant rates and perimeter		+ 6.2%

This organic growth can be broken down as follows:

- By discipline, Local Professional Services recorded the best performance (+10.9%) and Consulting and Technology Services have also recorded very strong growth, at 9.0%. Outsourcing revenues are up by 1.0%, despite the expected reduction in revenues from HMRC, a reduction more than balanced by strong activity otherwise.
- By region, Europe/Asia Pacific saw growth of 5.7% led by the Nordic countries where revenues rose by nearly 30% along with the Benelux countries, Spain and Portugal, and the Asia Pacific region, which all recorded double-digit growth. Growth remains strong in France (+6.8%) and even more so in North America, where revenues are up by 7.9%.

With an increase of 23%, bookings recorded for the third quarter 2007 amount to €1,972 million, against €1,604 million for the same quarter of 2006. This growth is even 66% for Outsourcing: €675 million against €406 million for the third quarter of 2006.

Total revenue growth over the first nine months of 2007 on the first nine months of 2006, is at 14.5% at current rates and perimeter, and still reaches 9.7% at constant rates and perimeter. The main reason for the spread between these two figures is the integration of Kanbay into the 2007 accounts.
