**Capgemini positioned in Leaders Quadrant
for Comprehensive Finance and Accounting BPO**

Paris, 13 July 2011, Capgemini, one of the world's foremost providers of consulting, technology and outsourcing services, today announced that it has again been positioned by Gartner, Inc in the leaders quadrant for Global Comprehensive Finance and Accounting BPO, in the latest "Magic Quadrant for Comprehensive Finance and Accounting BPO, Global" ¹.

Capgemini has been positioned based on "ability to execute" and "completeness of vision." Gartner defines its leaders quadrant as including service providers that are "performing well today, both with a clear vision of market direction and by actively building competencies to sustain their leadership position in the market. The comprehensive F&A BPO players in this quadrant generally share superior market understanding, have a global client base, an extensive network of well-distributed and highly populated global delivery centers catering for multiple languages, a good balance of transactional and high-end F&A delivery and innovative well communicated and marketed sales offerings."

Christopher Stancombe, Head of Global FAO at Capgemini, said: *"We are delighted to be named as a leader by Gartner in this important and ever-growing BPO sector. We believe this is credit to our robust services across a range of industries, our leading global delivery model and our methodologies in transforming Finance and Accounting operations into value-adding business functions. This includes our Global Process Model (GPM) which provides an end-to-end process roadmap representing global and industry best practices which can be easily adapted to regional regulatory requirements."*
