**Capgemini wins Oracle Excellence Award  
for Specialized Partner of the Year - Global in Oracle on Oracle  
Category**

**Paris, 4 October 2012 — Capgemini Spain S.L., part of the Capgemini Group, one of the world's foremost providers of consulting, technology and outsourcing services, today announced it has been awarded the Oracle Excellence Award for Specialized Partner of the Year – Global in the Oracle on Oracle category at Oracle OpenWorld in San Francisco.**

The Oracle Excellence Awards for Specialized Partner of the Year – Global recognize customers and partners that have driven business value together with Oracle in six different award categories including database, middleware, applications, industry, server and storage systems and Oracle-on-Oracle solutions. The nominees are judged by a renowned team of IDC executives and analysts.

Capgemini won the Oracle on Oracle category in recognition of its solution innovation and a track record for delivering customer value, simplifying IT and providing cost savings. In particular, the award highlights Capgemini's work on an IT transformation project with Azkar, a Spanish leading company in transportation and distribution logistics. As part of the project, Capgemini provides a range of services including hardware, software, administration, and monitoring.

Francisco Bermudez, Senior Vice President and Leader of Infrastructure Services for Capgemini Spain said: "We are delighted to win this award, which is testament to our collaborative work with Oracle to help define the technology solutions needed to deliver simplification, cost reduction and above all IT transformation. It recognizes our close relationship with Oracle to work as a team to solve core customer issues."

Andy Bailey, Senior Vice President, Strategic Alliances from Oracle said “Capgemini have been credited with the award because of its outstanding level of innovation, deep knowledge and expertise in leveraging Oracle technology. Capgemini has demonstrated its relationship with us to help find quality customer solutions for systems and applications consolidation based on Oracle architecture.”

This is the first time that Capgemini has been recognized in this “Oracle on Oracle” category. In 2011 Capgemini won the global award as Oracle Applications Partner of the Year.
