TRANSFORM BEYOND INDUSTRY 4.0 – AT PACE

Transform at pace with **Manufacturing Advantage**, a comprehensive solution built using Oracle Fusion Cloud SCM and enhanced with Capgemini's industry expertise, IP, and accelerators.

HOW DOES YOUR SUPPLY CHAIN STACK UP?

Market uncertainty and a competitive environment means manufacturers need to make their operations more resilient to changing customer needs and supply-demand challenges.

To overcome complex legacy systems, drive greater innovation, and bring products to market faster, many organizations are turning to a cloud-centric model, but often this requires heavy customization and cost to address industry-specific needs.

Beyond just an upgrade – but done in half time.

Introducing Capgemini Manufacturing Advantage. A solution built specifically for manufacturers that allows you to transform at pace using a pre-configured platform with out of-the-box capabilities.

Simple, yet comprehensive it can be deployed at speed and creates a Digital Advantage Foundation, which evolves with your growing needs.

The flexible core provides the groundwork to become an agile 'Advantage Enterprise', allowing you provision a broad scope of key capabilities, as well as more advanced functionality, such as Additive Manufacturing, Connected Factory and Digital Twin.

SPEND MORE TIME ON WHAT MATTERS

Standard business processes and industry specific templates simplifies the system architecture, so that it can be stood up at speed, with reduced costs, allowing resources to spend more time on innovation.

Increase speed to value

Increase speed to value with ready to use Plug and Play components, designed specifically for industry needs.

Lower costs and TCO

Remain, within budget and on schedule, with pre-configured instances, frameworks, tools, and accelerators.

Focus on innovation

Drive innovation and customer centricity by allowing resources to spend less time and effort on implementation.

GAIN A MANUFACTURING ADVANTAGE WITH GREATER AGILITY, VISIBILITY AND INNOVATION

Key components of our solution.

AGILITY
SCALABLE CLOUD PLATFORM

A modern cloud platform can be implemented at speed to harness data from across the supply chain.

- Simple and fast deployment
- ERP integration of master data
- Reduced complexity with a centralized system

- Prebuilt integrations, analytics dashboards and custom components to support 'order of one' manufacturing processes
- Cost effective Infrastructure using Oracle SaaS which has a lower TCO than legacy on premise platforms
- Core platform provides foundation for IoT and next generation supply chain technologies

SUPPLY CHAIN DASHBOARD

VISIBILITY
INTUITIVE DASHBOARD

An intuitive dashboard provides visibility across the supply chain, with insights for better decision making and customer centricity.

- Improves comms and collaboration
- Greater control over operations
- Better decision making in real-time
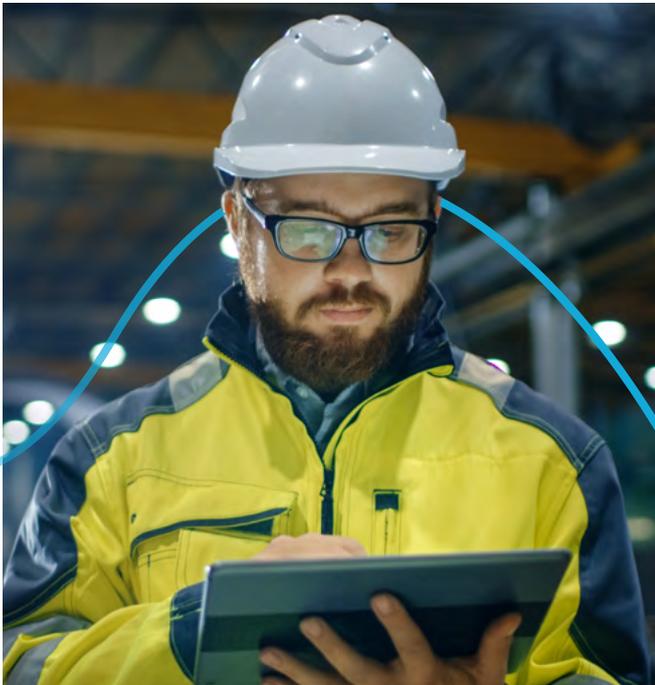

INNOVATION
OUT-OF-THE BOX SOLUTIONS

Out-of-the box industry-specific applications help improve value planning, manufacturing processes and business performance.

- Apps to drive business performance
- Leverage intelligent technologies
- Drive customer value across supply chain

- Customer managed inventory solution
- Algorithm based solution to manage cash reserves
- Provides foundation support for 'Product as a Service' revenue model transformation
- Support Engineer-to-Order, Make-to-Order, Configure-to-Order and other manufacturing modes.

BENEFITS TO HELP YOU BECOME MORE RESILIENT

Our solution helps you to anticipate market conditions, proactively address customer needs and continuously deliver better business performance using intelligent technologies.

INCREASE PROFITS

Complete visibility into financial and strategic data helps guide investment in the products and services with the most potential for profit.

GET GREATER EFFICIENCY

Achieve better results faster and improve manufacturing efficiency with automation, integrated processes, and applied advanced technologies.

GAIN SPEED TO MARKET

End-to-end visibility across the entire supply chain means you can bring products to market faster while controlling cost and risk.

COLLABORATE BETTER

Fosters strong collaboration amongst various supply chain partners i.e Suppliers, Logistic Providers, Customers and other trading partners in various manufacturing processes.

REWARD CUSTOMERS

Faster innovation creates alignment with customer needs, providing them with value-added services to lower overall product costs.

THE CAPGEMINI DIFFERENCE

What sets us apart.

PROPRIETY ACCELERATORS

Our 'Cloud Acceleration Tool Kit' integrates across your supply and demand chain.

TAILORED INDUSTRY TOOLS

Our unique 'Industry Direct' solutions are tailored to your manufacturing needs.

UNIQUE INNOVATIVE IP

Unique IP created around PaaS extensions, Blockchain, IoT and ML capabilities.

MANUFACTURING CREDENTIALS

Proven cloud transformation and Oracle expertise, with deep industry knowledge.

GET IN TOUCH

If you're ready to improve your manufacturing resiliency and digitally transform seamlessly, then get in touch and speak to one of the team today.
