

Capgemini positioned as a Leader in Avasant's Intelligent Automation Services 2021 -2022 Radar View report

Second consecutive recognition for Capgemini

Paris, June 20, 2022 – [Capgemini](#) today announced that it has been recognized as a Leader in Avasant's Intelligent Automation Services 2021-2022 Radar View report, for the second consecutive time. Avasant evaluated 31 service providers for this report across key parameters such as practice maturity, partner ecosystem, investments in this space and innovative approach.

Some of Capgemini's key strengths highlighted in the report included:

- Data driven approach to offer intelligent automation (IA) services to clients, creating digital twins of the process and further incorporating AI, automation, process analytics through its in-house tools and platforms
- Robust partner ecosystem which includes leading technology players across industry sectors
- Continued investment in strengthening its IA solution portfolio, leveraging emerging technology and enabling faster go-to-market

Geetika Mediratta, Practice Leader for Intelligent Automation, Capgemini's Business Services said, "As organizations increasingly embrace automation in business processes, they are looking for cost-effective solutions that boosts their process efficiency and help unlock the true value of their technology investments. With our suite of intelligent automation solutions, we deliver tangible results to our clients that drive growth and foster innovation. This recognition by Avasant further highlights our capabilities to enable frictionless enterprise for our clients."

Chandrika Dutt, Avasant's Research Leader said, "In the post-pandemic era, enterprises are reinventing their business models by turning data into business intelligence. Capgemini is catering to this enterprise need by offering data-driven intelligent process automation services. Capgemini's strong presence in major geographies, sharp focus on expanding cognitive asset repository, and comprehensive coverage across the automation value chain makes it a prominent player in the intelligent automation space. These features have placed it as a leader in Avasant's Intelligent Automation Services 2021-2022 RadarView."
