## Capgemini positioned as a Leader in the IDC MarketScape Worldwide IT and Engineering Services for Software Defined Vehicles 2025

Paris, September 9, 2025 – <u>Capgemini</u> today announced that it has been positioned as a Leader in the <u>IDC MarketScape</u>: <u>Worldwide IT and Engineering Services for Software Defined Vehicles</u> <u>2025</u><sup>1</sup>. The report evaluated service providers focused on automotive engineering and software-defined mobility services including end-to-end engineering, IT and digital and consulting services.

"Capgemini brings together strong engineering and R&D services capabilities, and a dedicated Software Defined Vehicles (SDV) practice, to deliver integrated services across the full SDV lifecycle from next generation vehicle architecture to software development, verification and validation, and product sustenance. Its global delivery network and innovation-driven teams exceed its customers' expectations, fostering strong customer loyalty and lifetime value," said Abhishek Mukherjee, Associate Research Manager, Digital Engineering and Operational Technology Services.

"Software is reshaping the automotive landscape at an unprecedented pace, making it imperative for automakers to adopt a software-first approach," said Laurence Noël, Global Head of Automotive at Capgemini. "At Capgemini, we combine deep industry expertise with advanced software capabilities to help automotive clients accelerate their transformation journeys and unlock long-term value in an increasingly digital and connected mobility ecosystem. We are happy to be recognized as a 'Leader' in the IDC MarketScape report, as we believe it highlights our commitment to helping automakers strengthen their competitive edge and achieve continued success in a software-enabled future."

## About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.

## **About Capgemini**

Capgemini is a global business and technology transformation partner, helping organizations to accelerate their dual transition to a digital and sustainable world, while creating tangible impact for enterprises and society. It is a responsible and diverse group of 350,000 team members in more than 50 countries. With its strong over 55-year heritage, Capgemini is trusted by its clients to unlock the value of technology to address the entire breadth of their business needs. It delivers end-to-end services and solutions leveraging strengths from strategy and design to engineering, all fueled by its market leading capabilities in AI, generative AI, cloud and data, combined with its deep industry expertise and partner ecosystem. The Group reported 2024 global revenues of €22.1 billion.
