Microsoft + Capgemini UK

A partnership built to make a difference

Capgemini

Microsoft UK Partner of the Year 2026

Over 25 years of collaboration. One shared ambition. An award-winning partnership.

Great partnerships aren't built overnight. They're built through shared ambition, mutual trust, and a commitment to delivering meaningful results.

For more than 25 years, Microsoft and Capgemini have worked together to help organisations embrace new technologies, solve complex challenges, and transform the way they operate.

Today, that relationship is stronger than ever.

The establishment of Capgemini's dedicated UK Microsoft Business Group has brought both organisations even closer, aligning executive leadership, technical expertise and industry specialists around a shared vision for cloud and AI-powered transformation.

Being named Microsoft UK Partner of the Year 2026 is a proud recognition of that commitment, reflecting the strength of the relationship, the investment in innovation and skills, and the difference both organisations are making for customers.

A year of momentum

July 2025 – June 2026

A look back at some of the moments, milestones, and collaborations that helped bring this award-winning partnership to life.

Q1: Strengthening the partnership

July – September 2025

The establishment of the dedicated UK Microsoft Business Group (MBG) marked a new chapter in an already longstanding relationship.

Bringing together leadership, sales teams, technical specialists, and industry expertise, the MBG created a closer, more coordinated approach to joint innovation, customer engagement, and go-to-market activity.

Q2: Innovating together

October – December 2025

The partnership continued to deepen through strategic customer collaboration and closer engagement with Microsoft's global innovation community.

A UK-based, global consumer goods business emerged as a flagship Frontier Firm pursuit, bringing together Microsoft's AI capabilities and Capgemini's transformation expertise to explore new possibilities for enterprise-wide innovation.

The UK Microsoft Business Group also attended Microsoft Ignite in San Francisco, strengthening relationships and bringing the latest developments in AI and agentic technologies back to the UK market.

Q3: Making AI real

January – March 2026

Microsoft and Capgemini joined forces to turn AI ambition into practical opportunities for customers and employees.

The Master AI with Microsoft event brought together more than 1,400 virtual attendees and 40 in person, showcasing the potential of Copilot, AI agents, and new ways of working.

The partnership also came together at Microsoft AI Tour London, alongside joint innovation showcases, executive engagements, and customer events, helping organisations explore how AI can deliver meaningful business value.

Q4: Shaping what's next

April – June 2026

With AI entering a new era, Microsoft and Capgemini continued to invest in the technologies, capabilities, and skills shaping the future.

As an official launch partner for Microsoft Agent 365, Capgemini strengthened its ability to help organisations govern and scale AI agents responsibly.

The partnership also brought the Agentic Industry Studio to the UK water sector, creating opportunities for industry leaders to explore AI-powered transformation.

And with the launch of MACA 2026, Capgemini reinforced its commitment to developing Microsoft AI expertise across its workforce.

Making an impact where it matters

Transforming public services

From central government and defence to healthcare and utilities, Microsoft and Capgemini combine trusted technology, industry understanding, and delivery expertise to help organisations modernise securely, embrace AI, and deliver better services.

Helping businesses embrace the AI era

Building on pioneering collaborations, Microsoft and Capgemini are bringing AI-led transformation to some of the UK's most complex commercial environments.

Together, they're helping organisations move beyond experimentation, modernise operations, and unlock new opportunities for innovation and growth.

More than technology. Powered by people.

Behind every achievement is a relationship built on people working together.

From executive leadership and joint account teams to engineers, innovators, and industry specialists, Microsoft and Capgemini share knowledge, challenge thinking, and bring their collective expertise to customers.

Whether collaborating at Microsoft Ignite, bringing customers together at industry events, developing new solutions, or investing in the next generation of AI skills, the partnership is built on a belief that we can achieve more together than we can alone.

It's this culture of collaboration, strengthened over decades, that continues to make the relationship exceptional.

Celebrating today. Building tomorrow.

Microsoft UK Partner of the Year 2026

Being named Microsoft UK Partner of the Year is a significant milestone in a relationship that has evolved over more than 25 years.

It recognises a shared commitment to innovation, technical excellence, customer success, and helping UK organisations realise the potential of Microsoft technologies.

But this isn't the culmination of the partnership. It's the beginning of its next chapter.

As cloud and AI continue to transform industries, Microsoft and Capgemini are building on their shared expertise, investing in new capabilities, and helping customers confidently embrace what comes next.

25+ years of partnership. A shared future of possibilities.
